In our '[Activities](#)' tab, you can see the exciting range of outdoor fun on offer for this holiday. Choose from a selection of must-try winter activities, including snowmobiling and husky sledding through the white wilderness, learning how to ice fish like a local, and

picking up winter skills like a real explorer. Brändön is well-placed for Northern Lights displays, so you can take a sled tour in search of the Aurora or go looking for them on snowshoes.

This is also an excellent location to have a Christmas break, or a New Year holiday – a festive getaway like no other! Both periods feature wonderful celebrations with Christmas and New Year feasts. Not that you have to visit at these specific times for a fun food experience that the whole family will enjoy. Book an Aurora Hideaway dinner and enjoy a tasty three-course meal in a cosy wooden cabin, which sits on top of the frozen sea!

Included in your holiday are transfers, half board and Arctic-grade cold-weather clothing which will be yours to keep for the duration of your stay and expert guides leading the way on all activities.

Simply decide when you want to travel and for how long (we recommend a minimum stay of three nights) then match your stay to the activities listed in the 'Activities' tab. Please note that all accommodation and activities are subject to availability at the time of booking.

We are also offering the chance to extend your stay and visit the world-famous ICEHOTEL® in Kiruna. This is done by a scenic train journey even further north into Swedish Lapland before being transferred to The ICEHOTEL® for a tour and an overnight stay in either the warm or cold accommodation on offer there.

Please note: Activity schedules are subject to change. Duration of activity includes transfer times and breaks, and all distances are approximate. Some activities require a minimum number of participants to operate and are subject to availability.

Husky safaris: All decisions are made on the day of the safari by the lead guide as to any guest's suitability to drive their own sledge. As a general rule, those aged 15 and over are normally able to drive their own team of huskies but the guide's decision on the day will be final. On certain safaris, children under the age of 15 will either travel in a sledge driven by the guide or an accompanying adult. There is also the option to enjoy a shorter safari on a sled for 4-5 people, which will be driven by an expert guide.

Snowmobile safaris: The driver of a snowmobile must be 18 years old and hold a valid driving licence. Children will travel in a sled pulled by the guide's snowmobile on selected safaris where this is offered, older children may be able to travel as pillion on the snowmobile (supplements may apply) but this is at the discretion of the guide.

Single snowmobiles: All snowmobile safaris are based on two people sharing. If this is not possible in your party then you will be paired with someone else taking part in the activity. If you wish to guarantee your own snowmobile you must pay the single supplement - please ask our Travel Experts for a quotation.

Aurora Hideaway Dinner

If you'd like to experience an extra-special night on the sea ice, this is the perfect evening activity.

You'll be taken by snowmobile-pulled sleigh into the wilds and across the frozen sea ice, towards the glowing cabin in the distance. This is no ordinary cabin, however, as it is moved around the archipelago on skis, pulled by a snowcat. This means that it can be put in the best possible location for Aurora hunting, based on the day's

wind, weather and ice conditions.

Nestled inside, the log-burning stove will keep you nice and warm as your guide prepares a three-course dinner for you on the fire outside. You will be served a drink of your choice on arrival (either wine, beer or a hot drink, and any further drinks can be added to your room bill to be paid at checkout). The first course will be a delicious, hot soup, followed by a main course and dessert.

Between courses, be sure to pop outside and search the skies for the Northern Lights. There will also be snowshoes available for you to use if you'd like to go for a short walk close to the cabin, as your next course is prepared.

Duration: 3 hours (approximately)

ACTIVITIES

Northern Lights Snowmobile Tour

This trip combines the best of both worlds. Experience an exciting snowmobile adventure through the Arctic night, leaving the Lodge and all artificial light behind you which also increases your chance to see the Aurora! The wintry landscape will be illuminated only by your headlights reflected by the snow, and of course the moon and stars above.

Snowmobiling is the best way to travel in the snow-covered landscape of Swedish Lapland. You don't need to head far out onto the sea ice or into the forest to embrace the feeling of being in the wilderness. This Northern Lights snowmobile tour takes you to some of the best viewing locations in the area for potential Northern Lights.

You will share a snowmobile between two (if you wish you can drive your own for a supplement) as you navigate your way through the dark winter landscape accompanied by your experienced guide. The guide will frequently make short stops to tell you about the Northern Lights as a phenomenon, how it occurs, and for you to watch and have time to take your own pictures.

Anyone wishing to drive a snowmobile must be at least 18 years old and in possession of a full driving licence. Children will typically travel in a sled pulled by the guide's machine.

Duration: 2.5 hours

Husky sledding (self-drive) 1.5-hours

Husky sledding has to be one of the most popular activities in this part of the world and a huge favourite with kids and grown-ups alike. wonderful animals.

You will meet the reindeer who will then join you in a walk into the forest towards a Sámi tent where you can enjoy a hot drink around an open fire.

The tour involves approximately 4 hours of dog sledding, with breaks along the way, covering between 30-50km, depending on conditions. The tour also includes a wilderness lunch, cooked over an open fire and you will also get to spend some time with the dogs during and after the tour; a great photo opportunity!

Your local guide will teach you all the techniques needed to use the cross-country ski equipment. Then, once you are fitted with your skis, you and

your family will follow your guide along the snowy trails.

Snowshoes make it very easy to walk in areas of deep snow. You and the children will greatly appreciate this when snowshoeing in search of the Northern Lights because they will help you get to less accessible wilderness areas where it is easier to spot the Aurora.

After walking through the snow-covered forest, your guide will prepare a fire and begin cooking your evening meal, as you discuss the science behind the Aurora and learn about the local area. Hot drinks will keep you nice and warm as you look to the skies in search of the Northern Lights.
