## Trip Overview

Sal Island, boasts golden sunshine and pleasant temperatures all year round, making it the perfect destination for a family adventure. One of the three sandy eastern islands of the Cape Verde archipelago in the central Atlantic Ocean, Sal is named after its salt flats - a unique feature of its fascinating landscape.

Sal invites you to explore its wonders both on land and sea. Discover giant humpback whales to tiny baby turtles; the sea around this tropical paradise teems with life. You'll snorkel amongst an array of fascinating native sea life and encounter the thrill of paddling between lemon sharks during a tour of the island.

From soaring through the air to basking in the warm waters of an Atlantic Ocean inlet, this adventurous holiday will allow you and your family to fully explore the equatorial paradise which will be your home for the week.

Your base will be the Hilton Cabo Verde, a family-friendly hotel located right on the beach. The resort has everything you need for a fun and relaxing stay. There's a large swimming pool for everyone to enjoy, a kids' club to keep younger guests entertained, and plenty of dining options with food to suit all tastes. **DAY  
6****ZIPLINE AND (FOR JULY AND AUGUST DEPARTURES) PROJECT TURTLE TRACKER**

The big one! While the idea of ziplining may be a daunting one for those afraid of heights, there is no better place to face your fears than Zipline Cabo Verde. After a jeep transfer to the base, you'll take a 15 minute steep walk to the top of the mountain (we recommend sturdy shoes for this) with rest breaks possible along the way. The staff here are very experienced at dealing with more hesitant adventurers and are happy to take the time to familiarise guests with the equipment. The guide will teach you about the rules you need to follow, explain the basics, and hook you up on the steel wire using a harness and making sure you are safe and ready to fly.

Your flight down the side of the mountain will take you over thousands of years of geological history, from the smooth granite caused by the initial eruption to the scrub-like desert which clung to it in the aftermath.

If you are travelling in July or August, we have also included a fascinating visit to meet the passionate team behind Project Biodiversity where you can learn all about the Loggerhead Sea Turtle and have a chance to see them up close. Project Biodiversity is committed to the protection and conservation of this endangered species.

Following a short transfer, you will meet in a whimsical bell tent where refreshments will be served before your introduction to the biology of sea turtles and the safeguarding work underway on the Cape Verde islands.

After the briefing, the group will take a walk along the beach to observe the turtles nesting ground. What an incredible experience!

**Included Meals:** Breakfast

**DAY  
7****SNORKELLING OFF SANTA MARIA PIER**

Why simply admire the Atlantic Ocean when you could dive beneath it? If you've never snorkelled before, don't worry: it's easy enough and your experienced guides will happily instruct you and your family on the correct procedures. You will be provided with all the equipment you need.

The waves around this stretch of coastline are gentle, meaning you can focus entirely on the schools of fish swimming close enough to touch without having to worry about the waves.

Your final afternoon will be spent admiring the aquatic majesty of Cape Verde's ecosystems, which play host to a variety of endangered species and a high proportion of marine species which can only survive here. After a few blissful hours spent enjoying gentle waves, you will paddle back to the starting point before being dropped back off at your hotel.

**Included Meals:** Breakfast
